## 1 Installation

Copy the qgis\_umesh-dll to the C++ plugin directory of QGIS. In my development installation it is:  
 <c:\OSGeo4W64\apps\qgis\plugins\qgis\_umesh.dll>

The qgis\_umesh.dll need the following dll's, so they should be in the %PATH%-environment variable:

- qt5core.dll
- qt5gui.dll
- qt5widgets.dll

Next dll's are probably already placed in the %PATH%-environment variable when installing QGIS:

- qgis\_core.dll
- qgis\_gui.dll
