Subject
Installation of the qgis_umesh plugin in QGIS 3.10 on a Windows 10 PC.

Copy to
—

1 Installation

- Copy the qgis_umesh.dll to the C++ plugin directory of QGIS. In my development installation it is: <c:\OSGeo4W64\apps\qgis\plugins\qgis_umesh.dll>.
- Install the icons on the program files directory <c:\Program Files\Deltares\qgis_umesh\icons>
 - file_open.png
 - map_output.png
 - plotcfts.png
 - remote_olv.png
- Install the program PlotCFTS on the program files directory <c:\Program Files\Deltares\plotcfts>
- The qgis_umesh.dll need the following dll's, so they should be in the %PATH%-environment variable:
 - qt5core.dll
 - qt5gui.dll
 - qt5widgets.dll
- Next dll's are probably already placed in the %PATH%-environment variable when installing QGIS:
 - qgis_core.dll
 - qgis_gui.dll
