Subject
Installation of the qgis_umesh plugin in QGIS 3.10 on a Windows 10 PC.
Copy to
—

1 Installation

➢ Copy the qgis_umesh.dll to the C**++** plugin directory of QGIS. In my development installation it is: <c:\OSGeo4W64\apps\qgis\plugins\qgis_umesh.dll>.
➢ Install the icons on the program files directory <c:\Program Files\Deltares\qgis_umesh\icons>
  • file_open.png
  • map_output.png
  • plotcfts.png
  • remote_olv.png
➢ Install the program PlotCFTS on the program files directory <c:\Program Files\Deltares\plotcfts>

Some notes
• The qgis_umesh.dll need the following dll's, so they should be in the %PATH%-environment variable:
  – qt5core.dll
  – qt5gui.dll
  – qt5widgets.dll
• Next dll's are probably already placed in the %PATH%-environment variable when installing QGIS:
  – qgis_core.dll
  – qgis_gui.dll
